Hazardous Weather

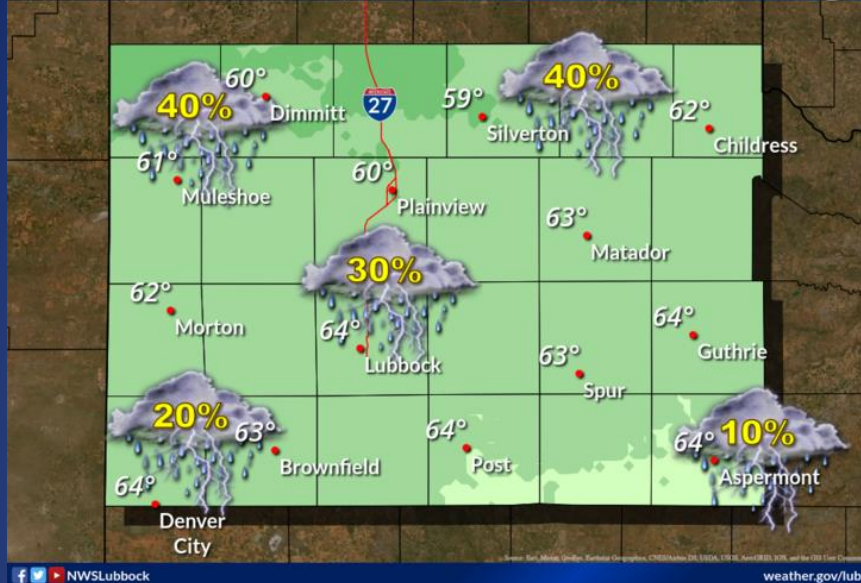

Hazardous Weather

Increasing Chances for Thunderstorms Sunday morning

Locally damaging winds and heavy rain will accompany storms

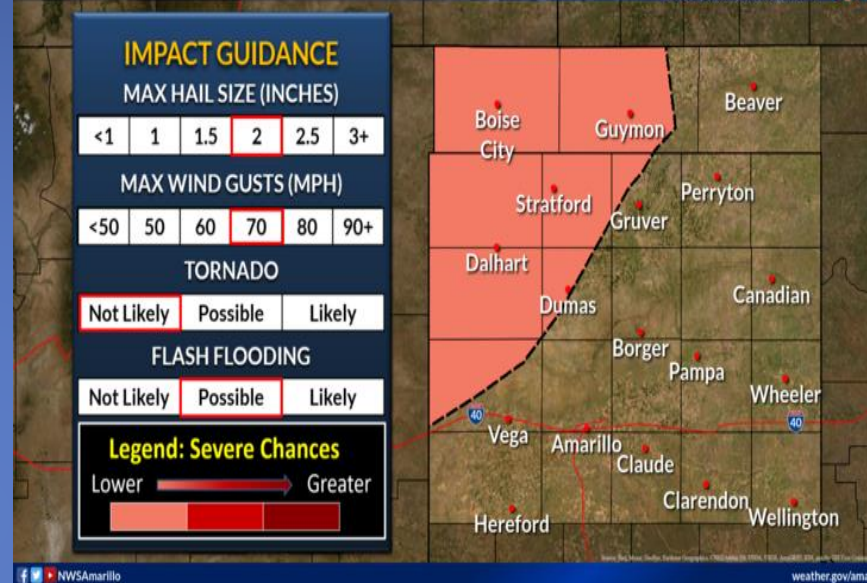

Weather Forecast Office
Lubbock, TX
Issued May 29, 2021 3:17 AM CDT

Chances for thunderstorms, some severe, will increase during the early morning hours Sunday from north-to-south.

Severe Thunderstorm Potential - 4 PM to 8 PM

Weather Forecast Office
Amarillo, TX
Issued May 29, 2021 3:23 AM CDT

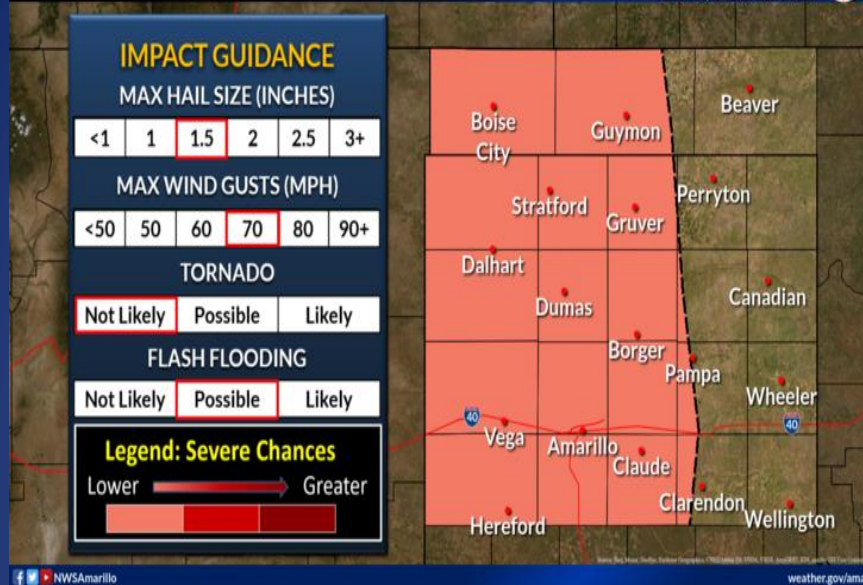

Severe thunderstorms will be possible generally across the western half of the Panhandles Saturday afternoon and evening. The main threats will be large hail, damaging winds and flooding rains. Though tornadoes look to be not likely, one cannot be ruled out.

Hazardous Weather

Severe Thunderstorm Potential - 8 PM to Midnight

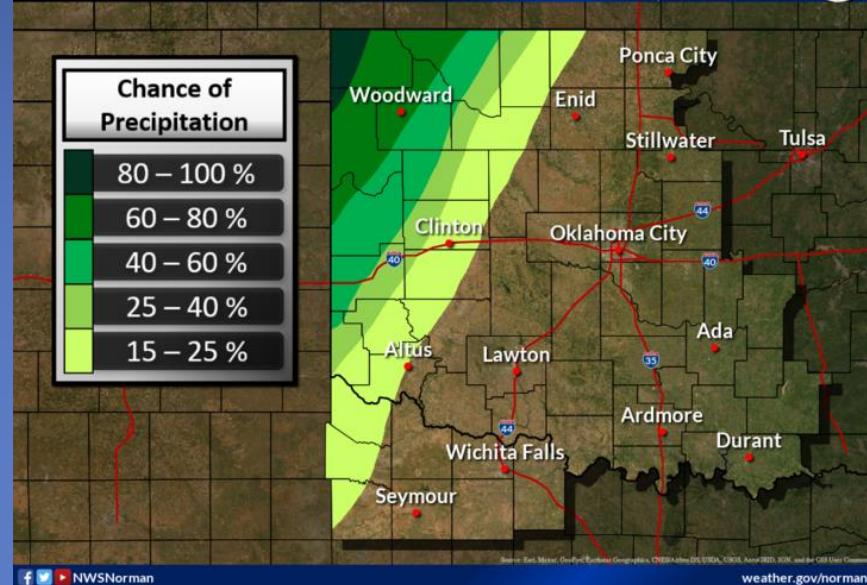

Weather Forecast Office
Amarillo, TX
Issued May 29, 2021 3:26 AM CDT

Thunderstorms will continue past 8 PM with severe thunderstorms possible through midnight for all of western to central combined Panhandles. Large hail and damaging winds, with flooding rains will continue to be the main threat.

Saturday Night Rain Chances

Weather Forecast Office
Norman, OK
Issued May 29, 2021 3:25 AM CDT

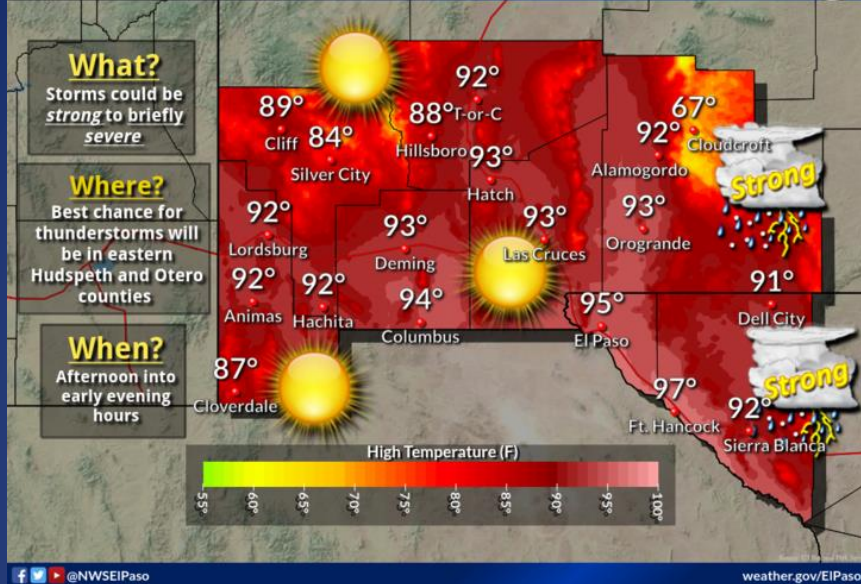

Showers and thunderstorms will move east from the Panhandles and western Kansas this evening, spreading into western Oklahoma and possibly western north Texas overnight.

Hazardous Weather

Saturday's High Temperatures

Sunny and warm with a chance of strong thunderstorms in the Eastern areas

Weather Forecast Office
El Paso, TX
Issued May 28, 2021 7:54 PM MDT

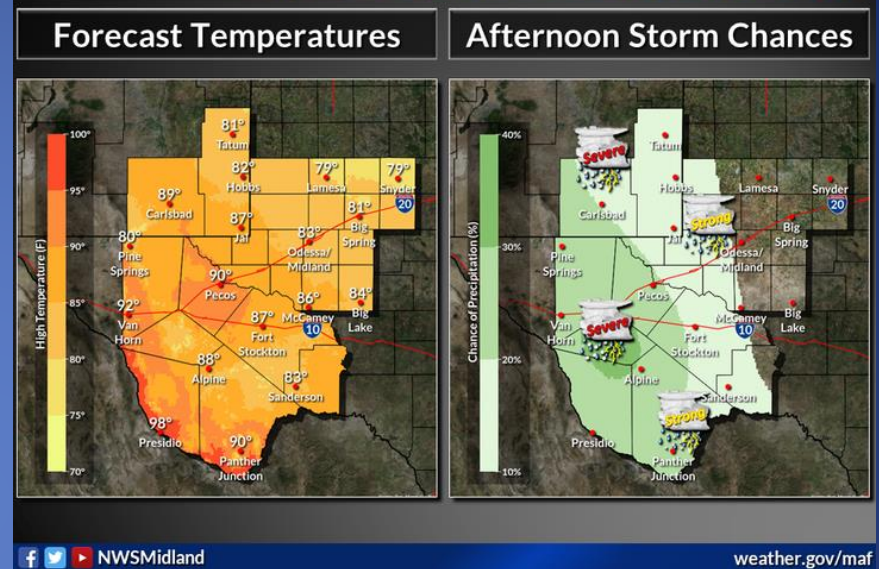

Sunny and warm conditions for most of our area Saturday. Afternoon thunderstorms will primarily be focused in eastern Hudspeth and Otero counties. Some storms could be on the stronger side bringing hail and gusty winds.

Strong to Severe Storms Possible

Threats include Large Hail, Damaging Winds, and Heavy Rain

Weather Forecast Office
Midland/Odessa, TX
Issued May 29, 2021 3:52 AM CT

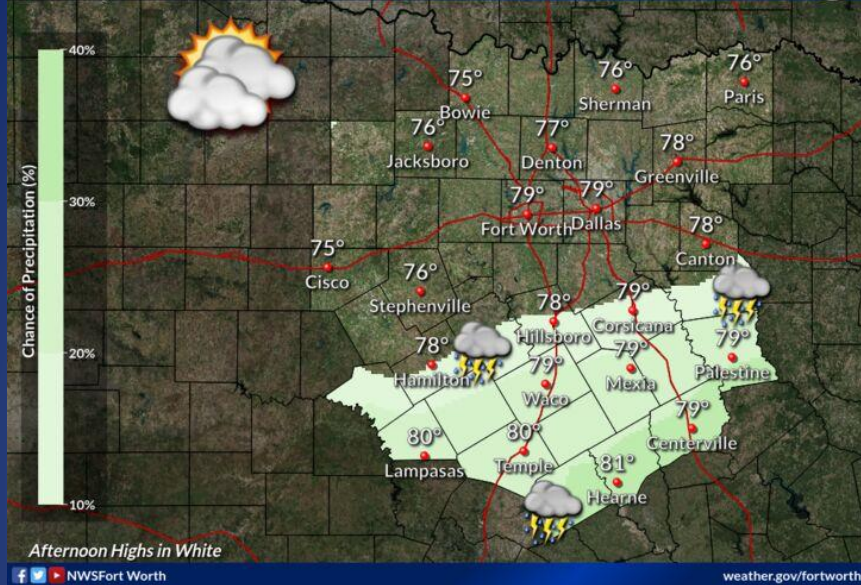

Another round of strong to severe storms is possible this afternoon into tonight, especially across western portions of the area. Large hail, damaging winds, and heavy rain are the main concerns. Temperatures will be a bit cooler, especially across northern areas. 90s remain possible through portions of the Pecos and Rio Grande Valleys.

Hazardous Weather

Saturday

A few storms possible across Central Texas

Weather Forecast Office
Fort Worth, TX
Issued May 29, 2021 4:06 AM CDT

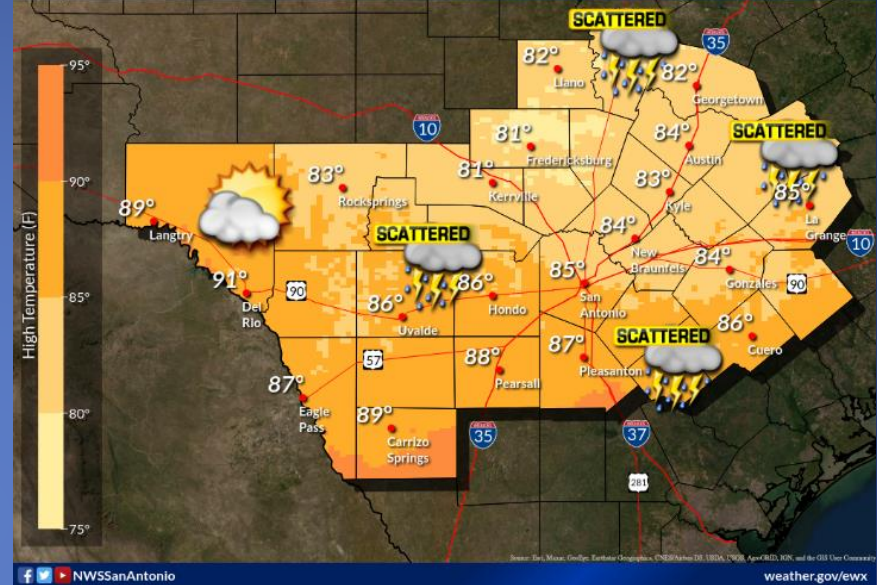

Today (Saturday) will be partly sunny and unseasonably cool with high from the mid 70s to the lower 80s. A few storms will be possible across Central Texas. Severe storms are not expected.

Scattered Showers and Thunderstorms

Activity should move east of I-35 this afternoon

Weather Forecast Office
Austin/San Antonio, TX
Issued May 29, 2021 1:51 AM CDT

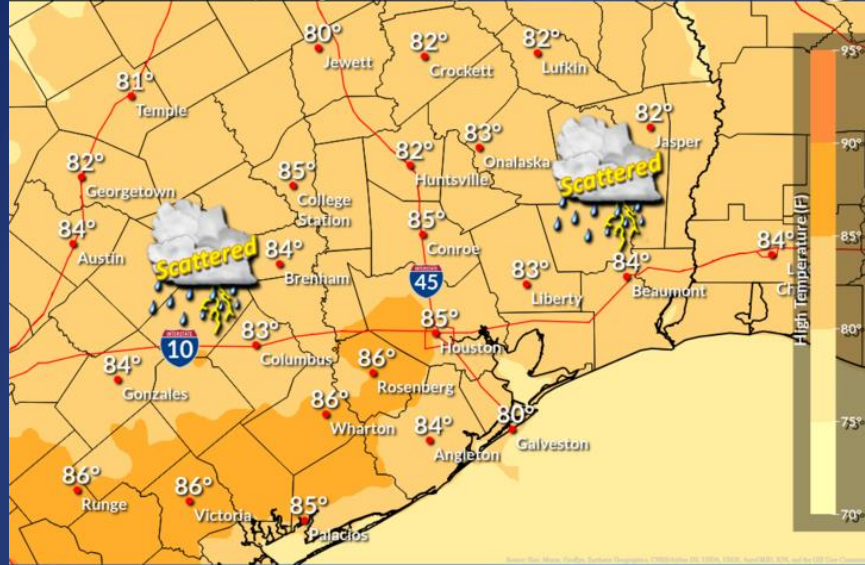

Scattered showers and thunderstorms are expected early this morning across the eastern two-thirds of the area. These lines of showers and storms will be moving to the southeast throughout the day with activity still on going along and east of I-35 corridor for this afternoon. Highs are expected to reach the lower 80s across the Hill Country, mid 80s over most areas with near 90 degrees near Del Rio.

Hazardous Weather

Saturday's Outlook

Scattered afternoon thunderstorms, becoming drier in the evening

Weather Forecast Office
Houston/Galveston TX
Issued May 29, 2021 4:16 AM CDT

@NWSHouston

weather.gov/hgx

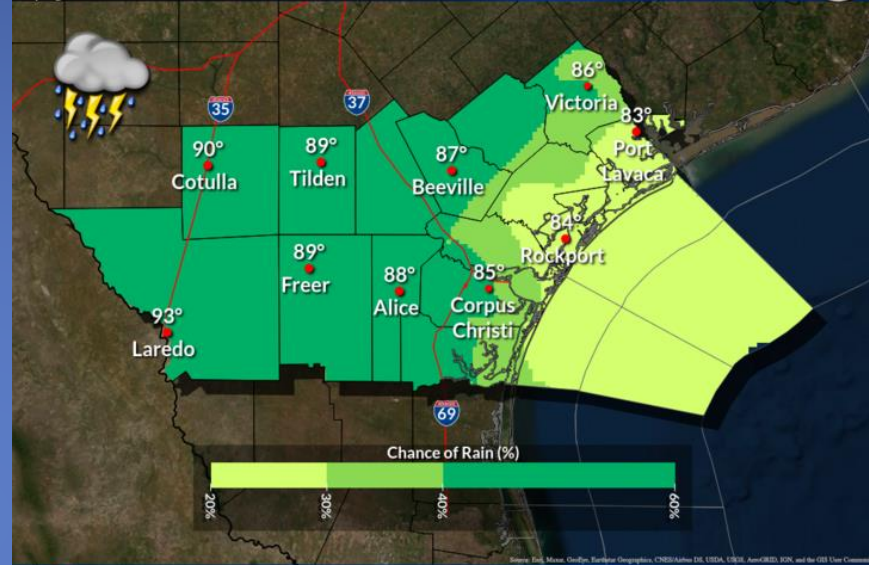

Scattered thunderstorms are possible in the afternoon hours, but drier conditions settle in going into the evening hours.

Showers and Thunderstorms Today

Drying Out in the Afternoon

Weather Forecast Office
Corpus Christi, TX

Issued May 29, 2021 5:53 AM CDT

NWSCorpus

weather.gov/crp

Showers and thunderstorms are expected this morning, with drier conditions for most of the area by the afternoon. A few storms will remain possible east this afternoon.

Hazardous Weather

Hazardous Beach Conditions

Beach Roads May Flood | Water May Reach the Dunes
Victoria

Weather Forecast Office
Corpus Christi, TX
Issued May 29, 2021 7:04 AM CDT

A Coastal Flood Advisory is in effect until 1 PM this afternoon for Middle Texas Coast beaches. Minor flooding is possible with 1 foot of beach inundation.

Mostly Cloudy Chance of Thunderstorms

A Few Strong Thunderstorms with Heavy Rain

Weather Forecast Office
Brownsville/RGV, TX
Issued May 29, 2021 5:15 AM CDT

An upper level disturbance will combine with an unstable atmosphere and daytime heating to produce a chance of thunderstorms today. A few storms will could become strong with gusty winds, heavy rainfall, lighting and the potential for some hail. Best chance for the stronger thunderstorms will be west of I 69C but a quick downpour is possible anywhere later today. Besides the isolated chance of a thunderstorm over the Laguna Madre and the Gulf water winds and seas will be favorable for marine activities. Mariners please check the forecast before venture out later today.
